Procedure

Phase A: 1. Combine GelMaker® Hydro with Glycerin, until wet and hydrated. 2. Add this mixture to the water under constant stirring, e.g propeller mixer at 300-400 rpm. 3. Once well hydrated and smooth, add Argan Surfactant very slowly under agitation (rpm 300-400).

Phase B: Add slowly, one by one, to phase A and under constant agitation, keep same rpm.

pH: 5.8

Properties

Mild cleanser made with Argan oil surfactant that transfers actual Argan oil to the skin and hair. Helps moisturizing and keeps the skin intact, non-stripping of skin oils. Kumquat extract adds skin soothing attributes. Ideal for the normal to dry skin types.
