Method

Add phase A into a disinfected glass beaker and mix with a stick blender. It does not have to be all smooth, it will be blended again in phase B. Start adding the Argan Oil and the Squalane and blend again well with the stick blender until free of lumps. Add all other ingredients in order and stir well after each ingredient, just with a spoon. The thickness can be adjusted at the very end by adding more ICE silicone. Give it a good final mix with the stick blender until everything is smooth.

Properties

CC cream stands for Complete Correction cream and is an all-in one product that unifies various properties in one product including anti-wrinkle, antioxidant, anti-aging, skin lightening, and moisturizing properties. The cream evens out skin tone, protects from oxidation, fights wrinkles, tightens sagging skin, moisturizes and diminishes the appearance of wrinkles.
