Phenoxyethanol	phenoxyethanol	Preservative	0.90	0.90	0.03
Fragrance Blossom Vine	fragrance	Fragrance	0.20	0.20	0.01

Procedure

Blend phase A. The solution will need to be warmed slightly in case coconut oil is solid.

Blend phase B. Mix the hyaluronic acid with the glycerin, then add to the water phase. Hydrate and mix well until free of lumps. Then add the other ingredients of phase B and blend well.

Combine phase A and B. Use jojoba strawberry red or orange for an interesting visual appearance.

Shake before use to dispense beads evenly.

Package the product into a container with a disc lid or similar, beads will not go through a pump device.

Properties

2phase cleanser with contrasting jojoba beads for mild exfoliation. Apple Extract, and Black Tea Extract have toning and moisturizing properties. For normal to dry skin.
