

## **Anti-Dark Circle/Anti-Puffiness Eye Treatment - 1049**

| Ingredient  | Function | Percent | Wgt (g) | Wgt (oz) | Vol (tsp.) |
|---|----------|---------|---------|----------|------------|
| Phase A   |          |         |         |          |            |
| Distilled Water (aqua)  |          | 82.00   | 82.00   | 2.89     | 16.40      |
| Sorbitol (sorbital)   |          | 1.00    | 1.00    | 0.04     | 0.20       |
| Phase B   |          |         |         |          |            |
| Triglyceride (caprylic / capric triglyceride)   |          | 5.00    | 5.00    | 0.18     | 1.00       |
| Rose Hip Oil (Rosa Moschata [Rose hip] seed oil)  |          | 3.00    | 3.00    | 0.11     | 0.60       |
| GelMaker EMU (sodium acrylate / sodium acryloyldimethyl taurate copolymer, isohexadecane, polysorbate 80) |          | 3.00    | 3.00    | 0.11     | 0.60       |
| Phase C   |          |         |         |          |            |
| Soy-Rice Peptides (hydrolyzed rice bran proteins, glycine soya protein, oxidoreductases, glycerin, water) |          | 5.00    | 5.00    | 0.18     | 1.00       |
| Benzylalcohol-DHA (benzylalcohol,<br>dehydroacetic acid)  |          | 0.80    | 0.80    | 0.03     | 0.16       |
| Fragrance Clean Linen   |          | 0.20    | 0.20    | 0.01     | 0.04       |
|   |          |         |         |          |            |

## Method

No heating required. Give phase A into a disinfected glass beaker and sprinkle the sorbitol into the distilled water while mixing well. Add phase B into another disinfected glass beaker and stir to blend the ingredients. Add phase B to phase A and stir very well until the cream-gel is smooth, thick and uniform (stir for a few minutes). Then add the ingredients of phase C to phase A/B and stir well. The gel can be filled into treatment pumps, jars or into tubes. If necessary, viscosity can further be adjusted with GelMaker EMU, stir well.

## **Properties**

Light cream-gel with Soy Rice Peptides that dramatically reduces dark circles and puffiness around the eyes (clinical study showed 35% reduction after 8 weeks treatment), improves skin smoothness and texture, improves microcirculation of the blood in the skin.
