Phenoxyethanol SA	phenoxyethanol, sorbic acid, caprylyl glycol	Preservative	1.20	1.20	0.04

Procedure

Combine phase A ingredients. Mix the guar thickener well until hydrated and free of lumps. Heat to 75C/170F. Combine phase B ingredients in another mixing vessel and heat to the same temperature. Add phase A to phase B under agitation. Remove from the heat and cool under agitation. Add phase C below 40C/100F. Blend again well until homogenous. Package when cool

Properties

Skin lotion with effective moisturizing complex, able to regulate water loss from within by reinforcing the skin's natural barrier. It reduces TEWL (transepidermal water loss) and forms a protective layer on the surface of the skin. Contains aloe vera and has a nice non-greasy skin feel.
