

## 2046 - Brightening C-Serum

Weight: 50.00g

Ingredient	INCI	Function	Percent	Wgt (g)	Wgt (oz)
<b>Phase A</b>					
Distilled Water	Water	Diluent	80.20	40.10	1.41
Glycerin	Glycerin	Humectant	3.00	1.50	0.05
Sodium Gluconate	Sodium Gluconate	Stabilizer	0.20	0.10	0.00
Xanthan Gum, Prehydrated	Xanthan Gum	Thickener	0.30	0.15	0.01
Hyaluronic Acid	Hyaluronic Acid	Humectant	0.30	0.15	0.01
<b>Phase B</b>					
Resveratrol Fluid	Propylene glycol, PEG-7 glyceryl cocoate, resveratrol	Antioxidant	10.00	5.00	0.18
Caprylyl Glycol EHG	Caprylyl glycol, ethylhexylglycerin	Antimicrobial	1.00	0.50	0.02
3-Glyceryl Ascorbate	3-Glyceryl Ascorbate	Brightening Agent	5.00	2.50	0.09

### Procedure

Phase A: combine xanthan gum, HA with glycerin and blend well to hydrate. Then mix with the remaining ingredients of phase A. Blend well until a gel has formed and the texture looks uniform (use a sheer mixer or hand blending).

Phase B: Add to phase A under good stirring. It's recommended to package into light protected bottles/dispensers.

pH 4.0

### Properties

Serum with a combination of a stable form of vitamin c and resveratrol fluid. Targets multiple mechanisms for skin brightening, which may help in reducing the appearance of aging skin.
