

1944 - Pressed Powder Eye Shadow Base

Weight: 30.00g

Ingredient	INCI	Function	Percent	Wgt (g)	Wgt (oz)
Phase A					
Triglyceride	Caprylic Capric Triglyceride	Emollient	4.25	1.28	0.04
Cyclomethicone	Cycomethicone	Emollient	3.00	0.90	0.03
Polyglyceryl Oleate	Polyglyceryl-4 Oleate	Emulsifier	0.75	0.23	0.01
Vitamin E Acetate	Tocopheryl Acetate	Anti-oxidant	1.00	0.30	0.01
Phase B					
Mica Crema	Mica	Colorant	31.00	9.30	0.33
Mica Spheres	Mica (and) silica	Texturizer	25.00	7.50	0.26
Boron Nitride & Silica	Mica (and) boron nitride	Texturizer	20.00	6.00	0.21
Magnesium Stearate	Magnesium Stearate	Texturizer	10.00	3.00	0.11
Titanium Dioxide	Titanium Dioxide	Texturizer	5.00	1.50	0.05

Procedure

1. Add titanium dioxide into a mortar. Add phase B (omit Mica Crema) to the mortar, mixing well with the pestle after each addition. Add phase A to the mortar and blend well, until all ingredients are mixed and the color looks uniform. Add Mica Crema and blend well. Fill eye shadow into eye shadow jars and press it. Pressing tool can be a hand held tool or a simple press.

Properties

Smooth light colored eye shadow color base, with slight sheen. This can be a canvas for adding colors of your choice.
