

Protein & Aloe Vera Hair Fluid For Damaged Hair - 1024

Ingredient	Function	Percent	Wgt (g)	Wgt (oz)	Vol (tsp.)
Phase A					
Distilled Water (aqua)		64.70	64.70	2.28	12.94
Sorbitol (sorbital)		2.00	2.00	0.07	0.40
Quaternium-31 (dicyldimonium chloride, isopropyl alcohol)		1.00	1.00	0.04	0.20
Cetrimonium Chloride (cetrimonium chloride, water)		5.00	5.00	0.18	1.00
Phase B					
Distilled Water (aqua)		20.00	20.00	0.71	4.00
Aloe Vera 10x Concentrate (aloe barbadensis)		2.00	2.00	0.07	0.40
Jojoba Protein HP, Hydrolyzed (hydrolyzed jojoba protein)		3.00	3.00	0.11	0.60
Provitamin B5 (d-panthenol, water)		1.00	1.00	0.04	0.20
Paraben-DU (propylparaben, methylparaben, diazolidinyl urea, propylene glycol)		1.00	1.00	0.04	0.20
Fragrance Coconut		0.20	0.20	0.01	0.04
Citric Acid (citric acid)		0.10	0.10	0.00	0.02

Method

Add phase A into a disinfected glass beaker, quaternium-31 will dissolve in the warm water. Add phase B into a separate beaker and stir the ingredients. Add phase A to phase B and stir gently to mix all ingredients. Adjust the ph value to 4 to 5.5 with citric acid.

Properties

Conditioning and moisturizing hair fluid that adds shine and detangles hair due to quaternium-31 and cetrimonium chloride. The jojoba protein coats and conditions damaged hair and retains moisture. Ideal to use with a pump spray.
