

1567 - Goji Gel Masque (100.00g)

Ingredient	Function	Percent	Wgt (g)	Wgt (oz)	Vol (tsp.)
Phase A					
Distilled Water (aqua)	Diluent	83.80	83.80	2.96	16.76
Goji Berry Extract, Organic Propanediol, water, Lycium Barbarum fruit extract, sodium benzoate, potassium sorbate	Botanical	5.00	5.00	0.18	1.00
Sodium PCA (sodium L-pyrroglutamate)	Humectant	1.00	1.00	0.04	0.20
Urea (urea)	Humectant	0.80	0.80	0.03	0.16
GelMaker Powder (acrylates C10-30 alkyl acrylate crosspolymer)	Thickener	0.70	0.70	0.02	0.14
Triethanolamine (triethanolamine)	pH Adjust	0.10	0.10	0.00	0.02
Sodium Gluconate (sodium gluconate)	Stabilizer	0.10	0.10	0.00	0.02
Phase B					
T-Resveratrol Fluid (PEG-7 glyceryl cocoate, propylene glycol, resveratrol)	Antioxidant	5.00	5.00	0.18	1.00
Phenoxyethanol SA (phenoxyethanol, sorbic acid, caprylyl glycol)	Preservative	1.00	1.00	0.04	0.20
Soy-Rice Peptides (hydrolyzed rice bran proteins, glycine soya protein, oxidoreductases, glycerin, water)	Protein	2.00	2.00	0.07	0.40
Provitamin B5 (d-panthenol, water)	Vitamin	0.50	0.50	0.02	0.10
Red No. 40 FD&C Lake (CI 15850 [red no. 40 FD&C lake])	Colorant (optional)	0.10	0.10	0.00	0.02

Method

1. Combine ingredients in phase A (except for gelmaker powder and triethanolamine). Stir well to dissolve urea. 2. Once homogeneous, add gelmaker powder and stir well. 3. Add triethanolamine to bring the pH up to about 5.0 and increase thickening. 4. Add phase B ingredients one by one, stirring well, except for the Red 40. 5. Disperse Red 40 in a few milliliters of water and then add drop wise until a light pink gel is attained. 6. Check final pH, should be 5 - 5.5.

Properties

A delicate blend of goji berry extract and soy-rice peptides mixed into a satiny gel masque. This formula helps retain moisture and even out the skin tone for all skin types.
