**Method**

Combine phase A ingredients (1-2), mix well (using a stick blender or homogenizer for best results) until the ice sunflower is dissolved. Add phase B ingredients in order, stir well after each ingredient. Use a stick blender or homogenizer to get a smooth consistency. Add phase C to phase A/B and stir again well. pH 4.5-5.5.

**Properties**

Apply a semi-thick layer to clean, damp skin. Let absorb on skin for 5-15 min before rinsing off using warm water.
