4 FIRST AID MEASURES

Eyes:	May cause mild irritation. Eyes may water profusely. Flush eyes with water lifting upper and lower lids occasionally for 15 minutes. If irritation persists, seek medical attention.
Inhalation:	May cause respiratory irritation in susceptible individuals. May cause shortness of breath, sneezing and coughing. Long-term inhalation of excessive dust may cause delayed lung injury. Move person away from exposure. If having difficulty breathing, administer oxygen. If breathing has stopped, administer artificial respiration and seek medical attention.
Skin:	May cause irritation and redness for susceptible individuals. Remove contaminated clothing. Wash thoroughly with soap and water. If irritation persists, seek medical attention.
Ingestion:	May cause irritation if large amounts are swallowed. Nausea and stomach pain may occur. There may be vomiting and diarrhea. Do Not Induce Vomiting unless instructed to do so by a physician or PCC. Never give anything by mouth to an unconscious person. Contact physician or Poison Control Center (PCC) immediately.

5 FIRE-FIGHTING MEASURES

Suitable (and unsuitable) extinguishing media:	May be combustible at high temperatures. Use appropriate media (water, carbon dioxide, foam, halogen) for surrounding environment and adjacent fire. No unsuitable extinguish media listed.
Special protective equipment & precautions for firefighters:	Wear self-contained breathing apparatus and full protective clothing, including eye protection and boots.
Flash Points:	Not applicable.
Specific hazards arising from the chemical:	In combustion, emits toxic fumes of carbon dioxide/carbon monoxide. May form Combustible Dust. See also Stability and reactivity section.

6 ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment & emergency procedures:	Do not create dust. Do not try to clean up the leak without proper protective equipment. See section 8 for recommendations on the use of personal protective equipment.
Environmental precautions:	Avoid liquid release into sewers/public water/environment. Notify environmental authorities in case of leak.
Methods and material for containment and cleaning up:	Collect as much as possible for use or disposal in a properly labeled container. Flush remainder into normal drainage with copious amounts of water. Dispose of absorbed material in accordance with the regulations.

7 HANDLING & STORAGE

Precautions for safe handling:	Wear suitable protective clothing. Ensure there is sufficient ventilation in the area. Avoid generating dust. Use good personal hygiene practice. See section 8 for recommendations on the use of personal protective equipment.
Conditions for safe storage, incl. any incompatibilities:	Store in a cool, well-ventilated area. Keep away from direct sunlight. Avoid contact with water and humidity. Recommended packing material includes paper, plastic or poly lined bags or drums. Store away from incompatible materials (see section 10 for incompatibilities).
