Procedure

Phase A: Combine ingredients in a disinfected glass beaker and blend well.

Phase B: Add to phase A, one ingredient at the time, blend well.

Phase C: Add to phase A/B under good stirring. Fill liquid into a foamer bottle.

pH 6.7

Properties

Upon dispensing, the foamer bottle transforms liquid into a mousse for seamless application. This product expertly tackles frizz and beautifully defines curls. It applies smoothly to both dry and damp hair.
