

Vitamin A (Retinyl Palmitate)

Specification Sheet

Description: GMO-free, highly active, fat-soluble vitamin with various effects on skin (synonym: vitamin A palmitate). Activity 1.7 MIU/g. Contains vitamin E (tocopherol) as antioxidant.

CAS: 79-81-2, 10191-41-0

INCI Name: Retinyl Palmitate, Tocopherol

Composition: Retinyl Palmitate, Tocopherol

Appearance: Golden oily liquid, faint odor

Benefits:

- Has potent rejuvenating properties.
- Can improve appearance of aged and blemished skin.
- Ideal for advanced treatment of pre-conditioned skin.

Use: Product crystallizes and becomes solid when refrigerated (recommended for storage); put in warm water-bath to melt. Can be added to formulas as is (as last ingredient), usual final concentration 500-20'000 IU/g (1g = 20 drops = 1.7 Mio units); Example: 10 drops vitamin A per 100g (3.5oz) cream gives 8'500 IU/g. Press out/suck out air after use, or use up at low level. For external use only.

Applications: All kinds of skin care products (primarily rejuvenating, nourishing & after sun products).

Solubility: Slightly soluble in alcohol, miscible in oils, insoluble in water

Preservation: Vitamin E tocopherol (antioxidant)

Storage: Store refrigerated (4-8°C / 39-46°F)

Country of Origin: Switzerland

Raw material source: Retinyl acetate and palmitic acid

Manufacture: Retinyl palmitate is produced by transesterificating palmitic acid (a fatty acid) to retinyl acetate which is made from retinal. Retinal is synthesized from beta-carotene.

Animal Testing: Not animal tested

GMO: GMO-free (does not contain plant-derived components)

Vegan: Does not contain animal-derived components.

HS Code: 2936210000

California Prop. 65: Under California's Safe Drinking Water and Toxic Enforcement Act, better known as OEHHA Prop 65, we are required to place a warning to this product since the OEHHA believes that retinol/retinyl esters may cause reproductive harm (e.g. interference in female/male reproduction or embryonal development), when in daily dosages in excess of 10,000 IU or 3,000 retinol equivalents. Importantly, retinol/retinyl esters are still required and essential for maintenance of normal reproductive function. Recommended daily level during pregnancy is 8000 IU. **WARNING:** This product contains retinol/retinyl esters with >10,000 IU, a chemical known to the State of California to cause reproductive harm. For more information, go to www.P65Warnings.ca.gov
