

Ethylhexyl Olivat

Specification Sheet

Description: Natural emollient made from olive oil as an alternative to silicones including dimethicone and cyclopentasiloxane, cyclohexasiloxane. Light like oil with a dry after feel. Saponification value 125-150.

CAS: 2047-49-0, 111-01-3

INCI Name: Hydrogenated Ethylhexyl Olivat, Hydrogenated Olive Oil Unsaponifiables

Composition: Hydrogenated Ethylhexyl Olivat, Hydrogenated Olive Oil Unsaponifiables

Appearance: Colorless and odorless liquid.

Benefits:

- Contains nourishing phytochemicals to support healthy skin.
- Softens hair and skin by adding a protective film and reducing greasiness.
- Naturally derived, low-viscosity emollient leaving the skin non-tacky, dry, and soft.
- Can be used as silicone replacement.
- Improves spreading of creams and lotions and provides an even protective film to hair.

Use: Can be added to formulas as is. Add to oil phase of formula. Typical use level 1-25%. For external use only.

Applications: Face and body creams and lotions, hair care products (shampoos, conditioners), sunscreens, after-sun cooling gels.

Solubility: Oil-soluble

Preservation: Preservative-free

Storage: Store in a closed container at a dry place at room temperature.

Country of Origin: USA

Raw material source: Olive oil

Manufacture: Made from fatty acids derived from olive oil.
