Mica Pink Camel

Specification Sheet

Description: Natural shimmer pigment coated with titanium dioxide, iron oxide, and carmine. Cosmetic-grade fineness (particle size range 10-60 um). Permitted exempt color for cosmetic use.

CAS: 12001-26-2, 13463-67-7, 1309-37-1

INCI Name: Mica (CI 77019), Titanium Dioxide (CI 77891), Iron Oxide Red (CI 77491)

Composition: Mica (CI 77019), Titanium Dioxide (CI 77891), Iron Oxide Red (CI 77491), Carmine (CI 75470)

Appearance: Light-brown-red shimmer powder

Benefits:

- Provides red-brownish color shades with shimmering and glittering luminescence
- FDA permitted exempt color for cosmetic use

Use: Suspends best in thick bases. Can be blended with other pigments. For external use only.

Applications: All kinds of decorative cosmetics & personal care products.

Solubility: Insoluble, but miscible in liquids (sinks to bottom in thin liquids)

Preservation: Preservative-free

Storage: Store light-protected at a cool and dry place.

Country of Origin: USA

Raw material source: Natural mica (muscovite and/or phlogopite)

Manufacture: Natural micas are mined from granitic pegmatites and then coated with various pigments (e.g.

iron oxides, titanium dioxide) to give them their specific color

Animal Testing: Not animal tested

GMO: GMO-free (does not contain plant-derived components)

10800 231st Way NE Redmond, WA 98053 Phone: 425-292-9502 makingcosmetics.com

Vegan: Contains animal-derived components (carmine)

HS Code: 2525200000

Regulatory Information: Mica Pink Camel is a FDA-approved color additive but is exempt from batch certification. Micas are safe for use in coloring cosmetics generally, including cosmetics applied to the area of the eye, in amounts consistent with good manufacturing practice. Carmine, which is contained in this mica, is also an FDA-approved color additive and exempt from batch certification. It is safe for use in coloring cosmetics generally, including cosmetics applied to the area of the eye, in amounts consistent with good manufacturing practice.
