

## Lavender Hydrosol, USDA Certified Organic

### Specification Sheet

**Description:** USDA certified organic distillate (hydrosol) from lavender flowers. Hydrosols are aromatic water produced during the steam distilling process of plants & flowers. They have similar scents and functional properties as essential oils but are less concentrated.

**CAS:** 90063-37-9

**INCI Name:** Organic Lavandula Angustifolia Water

**Composition:** Organic Lavandula Angustifolia Water

**Appearance:** Clear to pale golden in color, medium intensity lavender scent

**Benefits:**

- Has anti-irritating, soothing, calming, and moisturizing properties
- Can be used directly on the skin without further dilution
- Can be used in place of water in creating natural fragrances, lotions, creams, facial toners and other skin care products

**Use:** Add to water phase of formulas, typical use level 1 - 100%. For external use only.

**Applications:** Serums, creams & lotions, toners, skin cleansers, sun- and after-sun care, sunscreens.

**Solubility:** Water-soluble

**Preservation:** Preservative-free

**Storage:** Store in a closed container at a dry place at room temperature

**Country of Origin:** Bulgaria

**Raw material source:** Lavandula Angustifolia (Lavender) flowers

**Manufacture:** Prepared through steam distilling of plants & flowers.

**Animal Testing:** Not animal tested
