

T-Resveratrol Fluid

Specification Sheet

Description: Resveratrol is a natural polyphenol and powerful antioxidant. It is found naturally in small amounts in wine, peanuts, mulberry and knotweed. Has antioxidant and skin-whitening effects.

CAS: 501-36-0, 68201-46-7, 57-55-6

INCI Name: PEG-7 glyceryl cocoate, propylene glycol, resveratrol

Composition: PEG-7 glyceryl cocoate, propylene glycol, resveratrol

Purity Grade: No purity grade applicable

Appearance: Yellowish to amber semi-opaque liquid

Benefits:

- Has effective skin-lightening properties and is generally more effective than l-ascorbic acid and kojic acid
- It is fast acting with visible and significant results in only 2 weeks (applied 3 times per day)
- Has been found to reduce the appearance of aging skin due to its good antioxidant effects

Use: Comes as dispersion for easy use. Add at the end of the formulation process and mix very well, can also be added to the water phase of a formulas. Can also be added to an already made cream. Use level is up to 10% (10% is the maximum and you will get best results). Can be combined with other skin lighteners. May settle upon standing. Shake very well before use. For external use only.

Applications: Skin brightening facial and body care products, anti-age spot creams and serums, anti-aging for even skin tone, toners, sunscreen for UV protection. For best results use 3x daily.

Solubility: Dispersible in water and oils

Preservation: Preservative-free

Storage: Store in a closed container at a dry place at room temperature

Country of Origin: Switzerland

Raw material source: Yeast and glucose

10800 231st Way NE
