**Method**

Combine phase A in a mortar, combine well with a pestle until all is homogeneous. Once combined, add phase B and stir with a spatula or stirring rod so the mica shimmer isn't disturbed. Pour into pots with sifters for easy use.

**Properties**

This shimmery bronze powder can be used on the face, eyes, shoulders, legs, or anywhere you want a little sun-tanned glow. Reduce earth brown pigment blend for a more transparent application or increase it for a deeper color.
