

Natural Lip Balm Base

Specification Sheet

Description: Natural lip balm base with natural waxes and plant oils. The finished balm has excellent protecting and moisturizing properties.

Ingredients: Ricinus communis (castor) seed oil, cetyl stearyl alcohol, olea europaea (olive) fruit oil, beeswax, hydrogenated castor oil, glycine soja (soybean) lipids, lauryl laurate, copernicia cerifera (carnauba) wax, euphorbia cerifera (candelilla) wax, vitamin e tocopherol

Composition: Ricinus communis (castor) seed oil, cetyl stearyl alcohol, olea europaea (olive) fruit oil, beeswax, hydrogenated castor oil, glycine soja (soybean) lipids, lauryl laurate, copernicia cerifera (carnauba) wax, euphorbia cerifera (candelilla) wax, vitamin e tocopherol

Appearance: Yellowish solid paste, faint odor

Benefits:

- Super easy to use melt-and-pour product
- Natural Antioxidant properties
- Can be used as is or customized further with your own additional ingredients
- Excellent emollient
- Doesn't need to be diluted
- Great for use in lip balms, lipsticks and body butters

Applications: For making lip balms and solid lip glosses. Can also be used at about 2-5% in lotions, creams and body butters to act as an emollient and stabilizer, for the dry skin. 3.5oz/100g of the base make about 13-18 lip balms.

Preservation: Vitamin E tocopherol (antioxidant)

Storage: Store in a closed container at a dry place at room temperature.

Country of Origin: USA

Animal Testing: Not animal tested.

Vegan: Contains beeswax

HS Code: 3304100000
