

## Abyssinian Oil

### Specification Sheet

**Description:** Known as crambe oil, abyssinian oil is refined and expeller-pressed from the seeds of the crambe abyssinica plant. Due to its molecular structure and high concentration of unsaturated fatty acids (60% of C22 omega-9 long-chain fatty acids as well as C18 omega-6 and omega-9), abyssinian oil is highly resistant to oxidation.

**CAS:** 68956-68-3

**INCI Name:** Crambe Abyssinica (abyssinian) oil

**Composition:** Crambe Abyssinica (abyssinian) oil

**Appearance:** Clear pale-yellow liquid, characteristic mild odor.

**Benefits:**

- Non-greasy feel, absorbs almost instantly and leaves behind a soft moisture barrier.
- Superior antioxidant properties.
- Creates a net-like structure around the hair, keeping cuticles closed and protected while locking the moisture inside the hair.
- Has good moisturizing and water-retaining properties.

**Use:** Typical use levels: 1-100% in personal care products. For external use only.

**Applications:** Hair care products, creams, lotions, makeup, face oils, color cosmetics, skin treatments, hand creams.

**Solubility:** Oil-Soluble

**Preservation:** Preservative-free

**Storage:** Store light-protected at a cool and dry place.

**Country of Origin:** Canada, UK

**Raw material source:** Seeds of the crambe abyssinica plant

**Manufacture:** Expeller-pressed and refined from the seeds the crambe abyssinica plant.
