### Procedure

Phase A: Add to a clean glass beaker. Blend well.

Phase B: Add to phase A under good blending.

Phase C: Add to phase A/B, one ingredient at the time, under good mixing so the gel/cream looks smooth. Thickness can be adjusted by adding a higher amount of GelMaker EMU.

### Properties

Light cream gel that can help with premature skin aging and DNA protection. May even out skin tone and blemishes. Stimulates the eye area and reduces appearance of darkness, improves firmness and elasticity.
