

Mica Crema

Specification Sheet

Description: Natural light shimmer pigment derived from the mineral Muscovite. Cosmetic-grade. Permitted exempt color for cosmetic use. Satiny feel. Light shimmer with some matte appearance (in between mica powder and pearl white mica).

CAS: 12001-26-2

INCI Name: Mica (CI 77019)

Composition: Mica (CI 77019)

Appearance: white powder, light luster effect

Benefits:

- Provides off-white color shades with satiny light shimmering luminescence
- FDA permitted exempt color for cosmetic use

Use: Suspends best in thick bases. Can be blended with other pigments or micas. For external use only.

Applications: All kinds of decorative cosmetics & personal care products to add pearlizing and luster effects.

Solubility: Insoluble, but miscible in liquids (sinks to bottom in thin liquids)

Preservation: Preservative-free

Storage: Store light-protected at a cool and dry place

Country of Origin: India

Raw material source: Natural mica (muscovite and/or phlogopite)

Manufacture: Natural micas are mined from granitic pegmatites

Animal Testing: Not animal tested.

GMO: GMO-Free
