4 FIRST AID MEASURES

Eyes: If wearing contact lenses, remove them. Wash eyes with clean and cool water for at least 10 minutes while pulling eyelids open and seek medical assistance.

Inhalation: Upon inhalation of aerosol, vapor, and/or dust, take the patient into the fresh air. If there is difficulty in breathing, medical advice is required.

Skin: No special measures noted.

Ingestion: Do Not Induce Vomiting. Never give anything by mouth to an unconscious person. Non-toxic in small doses. For sizeable amount, seek medical assistance. Effects appear more severe in individuals with kidney problems. In case of doubt, or when symptoms persist, call a doctor. Never administer any medicine to unconscious people.

5 FIRE-FIGHTING MEASURES

Suitable (and unsuitable) extinguishing media: May be combustible at high temperatures. Use appropriate media (carbon dioxide (CO₂), dry chemical powder or appropriate foam) for surrounding environment for adjacent fire. Do not use a direct stream of water to extinguish.

Special protective equipment & precautions for firefighters: Wear self-contained breathing apparatus and full protective clothing, including eye protection and boots. Use water to cool tanks, cisterns or containers close to the heat source or fire. Take into consideration the wind direction. Prevent the products used to fight the fire from

Flash Points: going into drains, sewers, or waterways.
>482°F (>250 °C)

Specific hazards arising from the chemical: Fire can cause thick, black smoke. As a result of thermal decomposition, dangerous products can form carbon monoxide and carbon dioxide. Exposure to combustion products can be harmful to your health. See also Stability and reactivity section.

6 ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment & emergency procedures: Eliminate possible ignition points and ventilate the area. Avoid breathing fumes. Do not try to clean up the leak without proper protective equipment. See section 8 for recommendations on the use of personal protective equipment.

Environmental precautions: Avoid liquid release into sewers/public water/environment. In case of large spills or if the product contaminates lakes, rivers, or sewers, inform the responsible authorities according to local legislation.

Methods and material for containment and cleaning up: Pick up the spill with non-combustible absorbent materials (soil, sand, vermiculite, diatomite, etc.). Store the product and the absorbent in an appropriate container. The contaminated area should be immediately cleaned. Dispose of absorbed material in accordance with the regulations.

7 HANDLING & STORAGE

Precautions for safe handling: Cosmetic use only. Keep the container tightly closed and isolate from heat sources, sparks, and fire. Prevent contact with skin or eyes. In the application area, smoking, eating, and drinking must be prohibited. Follow legislation on occupational health and safety. Keep the product in containers made of a material identical to the original. Use good personal hygiene practice. See section 8 for recommendations on the use of personal protective equipment.

Conditions for safe storage, incl. any incompatibilities: Store according to local legislation. Store the containers in a dry and well-ventilated place, far from sources of heat and direct solar light. Keep far away from ignition points. Do not smoke. Prevent the entry of non-authorized persons. Once the containers are open, they must be carefully closed and placed vertically to prevent spills. Store away from incompatible materials (see section 10 for incompatibilities).
