### Method

Combine water, glycerin and propanediol and stir.  
Sprinkle Hyaluronic Acid into the solution and mix well.  
Sprinkle Carbomer into the solution and mix well, using a stick blender or homogenizer.

Combine phase B ingredients and heat to 165F/73C.  
Heat phase A to the same temperature.  
Add phase B to phase A and mix well, using a homogenizer or stick blender. Cool to 100F/40C.  
Add phase C ingredients, one by one, and blend well.  
Package when cool.

### Properties

Daily Lotion, very moisturizing with anti-oxidant properties to protect the skin from the environment.  
Light lotion ideal for hot and humid conditions as well. Australian Desert botanicals act as anti-oxidants and moisturize, so does the shea butter, protein and hyaluronic acid.  
Daily no fuss serum - with A List ingredients.
