4 FIRST AID MEASURES

Eyes:	Flush eyes with water for at least 15 minutes. If irritation persists, seek medical attention.
Inhalation:	Remove to fresh air. If breathing is difficult, give oxygen. If not breathing, give artificial respiration using a

Skin: pocket mask type resuscitator. Call a physician immediately. Immediately remove contaminated clothing and shoes. Wash off immediately with plenty of water for at least 15 minutes. Call a physician immediately

Ingestion: Get immediate medical attention. Do Not Induce Vomiting! Never give anything by mouth to an unconscious person.

5 FIRE-FIGHTING MEASURES

Suitable (and unsuitable) extinguishing media: May be combustibile at high temperature. Use appropriate media (sprayed water, foam, dry powder, CO2) for adjacent fire. Do not use direct water jet.

Special protective equipment & precautions for firefighters: Wear self-contained, approved breathing apparatus with a full face-piece in the positive pressure demand mode with appropriate turn-out gear and chemical resistant PPE. Structural firefighter's protective clothing will only provide limited protection. Water or foam may cause frothing which can be violent and possibly endanger the life of the firefighter. Water may be used to keep fire-exposed containers cool until fire is out.

Flash Points: No data available

Specific hazards arising from the chemical: Toxic fumes when combustion or in high temperatures occur. See also Stability and Reactivity section.

6 ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment & emergency procedures: No danger almost exists as adding agents of detergents. Wash off in clean water. Use approved dust mask if dust levels are irritating. Do not try to clean up the leak without proper protective equipment. See section 8 for recommendations on the use of personal protective equipment.

Environmental precautions: Avoid liquid release into sewers/public water. Notify environmental authorities in case of large leaks.

Methods and material for containment and cleaning up: Use with adequate ventilation. Collect spill for later disposal. Prevent entry into waterway and sewers. Collect as much as possible in a clean container for reuse and disposal.

7 HANDLING & STORAGE

Precautions for safe handling: Handle in accordance with good industrial hygiene and safety practices. These practices include avoiding unnecessary exposure and prompt removal of material from eyes, skin, and clothing. See section 8 for recommendations on the use of personal protective equipment. Keep container closed when not in use.

Conditions for safe storage, incl. any incompatibilities: Store at normal temperature and pressure. Keep container closed when not in use. Empty container contains residual product which may exhibit hazards of product. Avoid prolonged exposure to heat, air, and incompatible materials (see section 10 for incompatibilities).
